

Math Assignments for Session #4: Combining Terms, Order of Operations, Evaluating Expressions

This session is all about combining like terms, order of operations, and introducing word problems. We'll be taking what we've learned so far about operations on integers and combining this with variables to help us learn how to set up a problem so it can be solved easily with algebra. Let's get going!

For every session, you will begin with a math lesson from the teacher (you may watch live or recorded). Following this lesson, complete the workbook pages as assigned below. You will have the opportunity to complete additional games, puzzles, activities and challenges related to different areas of math. Have fun!

- [Pre-Algebra Workbook: Variables, Terms & Expressions](#) (pages 16-36)
- [Algebra Packet #1](#) Part 3 (page 13)
- Math Activity: [Pyramid Puzzle](#)
- Math Activity: [Distributive Property Puzzle](#)
- Math Challenge: Riddle #4
